Records in red not L2 eligible

The methodology of eliminating the HIGHEST PERFORMING EXHIBITORS from L2 by using "average plus 3 standard deviations" means that based upon the total exhibitors, total points earned over the preceding three show years and how an individual exhibitor "deviates" from the "average" exhibitor, a threshold point break is determined.

Typically this methodology eliminates the top 1-2% of the HIGHEST PERFORMING EXHIBITORS from L2.

This methodology was approved by the Blue Ribbon Task Force.
